

IT'S TIME FOR
Stressless[®]

Born of nature

The legendary Stressless® recliner was born on the west coast of Norway, in the small community of Sykkylven, where our main factory still lies. Jens Ekorner founded the company in 1934, after which an unbroken lineage of proud craftsmen have produced some of the world's finest furniture here. In a place where resources were scarce, everything had to be built to last. That philosophy still resides within the factory walls.

When the Stressless® Original was launched in 1971, it was an unprecedented success. Today, a Stressless® recliner, sofa or dining chair is still assembled by hand, with the aid of the most sophisticated technology available in furniture manufacturing. As new designs continue to be born here in the fjord landscape, our main goal remains unchanged: The most comfortable seating experience ever.

Comfort recharging

Just like a human being, a Stressless® recliner is a fine tuned instrument. It loves movement. It strives for the optimal balance between softness and support. That's why recharging in a Stressless® recliner is different – it speaks the same language as your body.

Design

The Stressless® design is a unique selling point in a market where aesthetics normally plays a secondary role. The recognisable look is true to the Nordic design tradition and is based on well-thought-out combinations of natural materials and a durable product quality.

Patented features

For more than 50 years, Stressless® has developed comfort design and features based on insight into the human anatomy and people's everyday lives. This has contributed to a large number of patents which have repeatedly set the agenda for the category.

Nordic heritage

Stressless® origins and surroundings are the foundation for design and innovations. The brand is committed to sustainability, orderliness and a democratic outlook on life. This provides a legacy that Stressless® symbolises across borders and markets.

Sustainability

Stressless® aims to become the world's most sustainable furniture maker, and a leader in circular design. Thanks partly to the use of hydropower, that goal is within reach. Our greenhouse emissions are reduced year by year, and we currently recycle 80 per cent of waste.

Quality and comfort that lasts

At Stressless® we make quality products that will last you a lifetime. Our raw materials are selected with the utmost care and consideration to give the furniture endurance. Choosing a high-quality product extends its lifespan and lowers the environmental impact making design just as important. With our focus on timeless pieces, we create Stressless® icons to last.

The comfort formula

After taking a seat in a Stressless® recliner, you may find yourself pondering: What makes it so much more comfortable? The main reason is the level of attention it pays to how your body works, from feet to neck, through patented comfort technologies like BalanceAdapt™, Power™, Plus™ System and the Glide™ System.

Some of the secret also lies in the sheer quality of materials and craftsmanship applied in the making a Stressless® recliner, which makes it a sustainable choice that will potentially last for generations. Add to that the joy that stems from freedom of choice, where you get to pick the design, size, color and texture of your ideal recliner, and you may have found your answer.

Lean back

... for a new level of comfort

If you have ever owned a truly comfortable recliner, you know that it quickly becomes the most popular piece of furniture in the home. This is where you retreat after a long day at work, or spend that deservedly lazy morning. It is where you read, watch tv, chat and even put in some home office hours. With that in mind, it is good to know that a Stressless® recliner adapts to your body and moves with you, taking care of your body's need for natural motion.

It's time to take our Comfort Test

The ultimate sensation of comfort is individual and personal to everyone. Because we all have different needs, we encourage you to take our Stressless® Comfort Test to find the size and model that fits you best. We guarantee this will be time well spent. After all, a Stressless® recliner is an investment you will enjoy for many years to come.

- Does the recliner feel stable and safe?
- Are the height and width of the chair right for you?
- Do you find it easy to adjust the chair to your preferences?
- Does the chair provide good lumbar support in all positions?
- Is your head supported comfortably as you recline to read or watch TV?
- Can you adjust the headrest so that it lays flat when you recline?
- Do you have the feeling that the seat back reclines sufficiently?
- Do you have a comfortable and relaxing angle on the leg support?
- Can you position the leg rest according to your preferences?
- Are you aware of how your entire body relaxes?

Where comfort comes from

You can tell at a glance: This is what comfort is all about. From the supple cushioning to the well-known profile of the base, back and armrests, a promise of relaxation. A line of classic Stressless® models form the bedrock on which our brand name is built. To achieve our goal of creating the most comfortable sitting experience ever, we built and implemented some truly pioneering technologies, all of which you will find in these inviting and generous recliners. Comfort never goes out of style.

Right size matters

We all come in different shapes and sizes, and our tastes in interior design differ. That's why most of our Stressless® recliners are available in a variety of dimensions, from slightly taller and wider to smaller and slimmer. A large selection of bases with different designs and functionality allows you to personalise your recliner further. We have included a full overview of the many possibilities on the last pages of this catalogue.

A smarter footstool

A Stressless® free-standing footstool is the perfect partner for our chairs and sofas. Why? Well, this isn't your traditional, static ottoman. All Stressless® furniture is based on research into human anatomy, and we found that when you lean back in a recliner chair, your legs move forwards and down. Most traditional, flat footstools do not support this sitting position.

We have given Stressless® footstools a built-in sliding function that automatically follows the movement of your legs, giving you the freedom to move whilst staying completely supported and making the world's most comfortable recliner even better. What's more, in a locked position our footstools can be used as an extra seat.

A woman with curly brown hair is reclining in a dark grey leather armchair, looking out a large window. She is wearing a light beige turtleneck sweater and brown trousers. Her hands are resting on her lap, and her feet are tucked under her. The chair has a polished metal base and a footstool. A small white cup of coffee sits on a dark wooden table next to the chair. The room has dark wood flooring and a lamp is visible in the background.

Stressless® Mayfair (M) Cross with footstool
Paloma Neutral Grey/Wenge/Polished Metal

Over 50 years of perfect balance

The Stressless® Signature and Cross bases feature the unique BalanceAdapt™-functionality. This gives a feeling of complete comfort that makes them stand out from other recliners. The innovative mechanism provides a gentle rocking motion, creating a feeling of weightlessness, and the ability to lie almost horizontally. These base options have a stylish and Scandinavian aesthetic that add a contemporary edge to the leather and fabric recliner range.

FIND YOUR BALANCE with BalanceAdapt™. Subtle rocking motions enhance the feeling of total balance. These movements usually make all the difference between a good seat and a fantastic one.

A tailored fit

Stylish, urban and classy, this series of recliners have found their way into a wealth of modern homes. That's not based on looks alone: The Stressless® Paris, Stressless® London and Stressless® Tokyo recliners can be tailored to fit both your body and your taste in interior design. The high back variety comes with or without an adjustable headrest. A more compact low back version is also at the ready. We give you four bases to choose from: Cross, Original, Star and Home Office. Add to that a myriad of leather or fabric varieties, and colors to match any interior, and you'd be hard pressed not to find your favourite.

The definition of an exclusive sitting experience

Besides keeping a keen eye on the latest developments in trends, materials and technology, the aim of Stressless® designers is always to refine our winning formula: A combination of aesthetics and functions that provides the best looks and comfort available. The Stressless® Rome product line introduces a design that takes this one step further. The enveloping backrest aligns perfectly with bodies and modern interiors alike. It is based on comprehensive, qualitative studies across borders, where we have mapped the needs and desires of consumers.

Beneath the surface, Stressless® Rome houses the familiar features that ensure an exclusive experience. The Stressless® Plus™ System provides maximum comfort and support for the head, neck and lumbar region. Further, the sleep function can be activated with a hand movement, while BalanceAdapt™ automatically adjusts the seat and back angle to the user's anatomy and movements.

If the shoe fits

Have you noticed how a shoe can completely transform an outfit? Or how a new set of rims can change the appearance of a car? The same goes for recliners. The new cross base is our most modern, slim base, giving the recliner of your choice a light and airy appearance. It offers every bit of the same functions as our Signature base, down to the subtle rocking of the BalanceAdapt™ system.

FIND YOUR BALANCE with BalanceAdapt™. Subtle rocking motions enhance the feeling of total balance. These movements usually make all the difference between a good seat and a fantastic one.

Celebrating our iconic roots

Over half a century ago, the first Stressless® recliner was introduced to the public. Since then, it has become one of the most widely recognised furniture brands in the world. To celebrate this, we have reintroduced a distinctive design element from that very first Stressless® recliner. The unique and beautiful Original base is an ode to our beginnings, and so are the details of the elegantly curved steel structure on the chairs that are available with this base. On a new generation of modern and urban recliners, the Original base creates an iconic retro look.

Timeout in the big city

Inspired by metropolitan living, The Stressless® Tokyo, Rome, London and Metro - offer a nod to mid century design and urban architecture.

They also unite in offering three different back options – high back, low back and an adjustable headrest.

The high back models offer all the well-known Stressless® comfort features for personal relaxation, while the low back versions invite you to gather with friends and family. Height adjustable designs allow you to increase the length of the back by up to 10 cm, offering true personal comfort contained within iconic good looks.

Optimal comfort is also about unique design options. Our Urban models come in 3 different back options – Low, Adjustable and High Back.

Comfort at your fingertips

What could possibly make the ultimate recliner even more pleasing? Motorised adjustments controlled by a discreet panel might be a start. And why not throw in a heated massage? Some Stressless® recliners have just a little more power under the hood.

Stressless® Scott Sirius base
Paloma Almond/Brushed Metal

Extra comfort.

Add heating only, or heating combined with a light massage for intense relaxation.

Savour the feeling

Sleek and sophisticated, Stressless® Scott is a modern take on the recliner built for the discerning homeowner. Note the double stitching at the seams, and the soft silhouette which will blend into any home decor. The integrated pillow in the headrest makes it easy to adjust head and neck support to your preference.

We know how important it is to be able to maintain a consistent interior design through the home. That is why Stressless® Scott comes with a multitude of choices between different bases, quality upholstery and colours. The Sirius aluminum cross is available in Brushed or Matte Black finish. The laminated round Disc base comes in Black, Natural Oak, Whitewash and Walnut veneer.

Stressless® Scott Sirius base
Paloma Almond/Brushed Metal

Power™

Stressless® Scott and Stressless® Sam come with three motors, all individually operated by a slim and stylish remote control that attaches to the chair armrest by magnet. You can easily adjust the support to your back, legs and head, and the movements for the head support is synchronised with the movements of the backrest. Simply hit the HOME button to move back to an upright position. Take comfort to the next level with optional extras including heating and massage. Chairs without heating and massage functions are available with battery if you prefer to avoid cords.

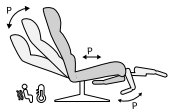

Cherish the moment

An all-out luxury recliner, Stressless® Sam represents a unique meeting point between iconic mid-century modern style, advanced technology and pure comfort. With a generous open design, round soft shape and pared back cushions, Stressless® Sam has an elegant and contemporary outline paired with detailed French stitching at the seams. A curved back and seat provide a comfortable and hugging feeling whilst sitting, and the accentuated shape of the adjustable headrest cushion offers perfect support for the head and neck. The motors will quietly adjust it to your liking. Stressless® Sam is even available with heating and a massage function.

Stressless® Sam Wood adds wooden panels on the armrests for a totally natural Scandinavian look and feel. Four different wood tints are available. Personalise Stressless® Sam and Stressless® Sam Wood with your choice of swivel base and high quality leather or fabric, both available in a wide range of traditional and modern colours.

The powernap reinvented

Ever since our first Stressless® recliner hit the market in 1971, the Stressless® brand has been associated with comfort, quality and innovation. Today, we take this commitment one step further and are delighted to offer some of our most iconic recliners with our patented motorised systems.

Stressless® Power™ recliners offer enhanced motorised functionality, with built-in motors operating the headrest, lumbar support, back and footrest. They represent a great alternative to a recliner with a separate footstool.

The integrated footrest has a slim design, and is elegantly concealed beneath the seat. You extend it at the push of a button under the armrest. The footrest is designed to follow the natural angle of your feet and can be adapted to different leg lengths, extending longer than most other footrests on the market.

A battery operated version is also available, with a magnetic charger attachment for easy access. See the last pages of the catalogue for a full product overview.

Home office comforts

Today, many of us experience a more fluid definition of work and where it takes place. Whether you have a dedicated room, or reserve a nook in the dining room for your home office, it's important to stay comfortable. A well-designed chair that actively encourages movement is a necessity.

Working from a Stressless® recliner keeps you both agile and supported during those long hours. Our collection of Home Office recliners marries supreme comfort and style, blending effortlessly with the rest of your interior. Equipped with the elegant Home Office base with wheels, they fit perfectly by your table or desk.

All our recliners can be used as home office chairs. The models with the elegant steel structure come in a polished metal base, available with three back heights. The models with wood details come with a black base and the same choice of wood colours as on the regular recliners.

A comfortable & stylish study

You may already know our range of Stressless® Dining chairs, and the difference they make for comfort at the dining table. But did you know that these light and compact designs also transform into exquisite Home Office chairs, simply by adding our innovative wheel base? By choosing a Stressless® Home Office chair that blends in design-wise, composing a stylish home office is effortless. The large choice of covers makes it easy to match or contrast against the rest of your interior. The base is available in polished metal or matte black finishes. All chairs with the castor base have swivel and height adjustment as standard.

Lean back ... and recharge

Your interior design has an impact on your sense of well-being, and on the mood of those around you. Whether it be playful, elegant or bold, there is a Stressless® sofa design that fits right into the atmosphere you want to create. In addition, every Stressless® sofa can be customised to your choice of materials, colours and details. But looks are just the start of your voyage towards the ultimate home comfort. Below the surface, a Stressless® sofa has functionality based on decades of research into the best possible sitting experience. To give you a clue: It involves much more than a comfortable seat. It adapts and moves with you. It's a sofa that feels just as good as it looks.

Stressless® Emily Steel

Stressless® Emily Wood Paloma Espresso/Walnut

The ultimate power sofa

Stressless® Emily is a no holds barred luxury sofa, with all the comfort and functions you have come to expect from the Stressless® brand. It has an adjustable headrest on all seat modules. You can lower it for a sleek low-back sofa with perfect back support for sitting, or adjust the angle and height of the headrest for extra support to your head and neck. Put your feet up on the LongSeat module with leg support and adjustable headrest or choose a Power™ seat to get an adjustable footrest. It is customisable to your every whim.

Stressless® Emily also offers a large choice of high-quality leather and fabrics, and the choice between three versions of the armrests: Emily Steel and Emily Wood have slim armrests with elegant details in steel or wood, while Emily Wide has distinct upholstered armrests with luxuriously large proportions. Stressless® Emily is a modular sofa system. Seat modules, with or without Power, corner, two sizes of LongSeats, center modules or end modules can be combined to create the sofa of your dreams.

Lie back and relax

Sleek lines and a streamlined silhouette give Stressless® Emily a clean, modern look that signals confidence and style. The contemporary design blends well with any modern interior. The soft cushions ooze with luxury and invite you into the comfort zone of your home. It is one of our Stressless® Power™ sofas, which means you can easily adjust the seating position with the control panel for perfect relaxation. We offer a range of different designs and modules which makes it easy to configure the perfect sofa for you.

Indulge in comfort

Stressless® Mary is a truly sumptuous sofa with gentle curves and a generous look that will never go out of style. Its cushioning is extra supple and soft for added indulgence. Individual seat modules can be fitted with motors for effortless adjusting of the back and leg support. The functions are operated from an integrated panel, discreetly concealed on the right side of your seat when seated.

Seat modules with or without power can be combined, and you can also add a spacious corner module to your setup. Choose between a classic upholstered armrest or an armrest with wooden details for an elegant touch. Stressless® Mary matches exquisitely with Stressless® Mayfair, one of our best-selling recliner models through the decades. With the same range of leathers, fabrics, and colours available across our entire range of furniture, completing your look has never been easier.

The perfect gathering place

The sofa is where you meet to exchange stories, or to nap in your safe and snug nest. It can be the centrepiece of the party, or the calm spot to relax with your favorite book. Finding the right one is an investment in memories and experiences, and not a task to be taken lightly.

The perfect gathering place adapts to everyone: The Stressless® BalanceAdapt™ System allows the sofa to respond to your movements, adjusting the seat as you shift. Recline, lean forward, lie down or put your feet up. When the occasion calls for just a regular sofa, simply lock the function to stop the seat from moving.

FIND YOUR BALANCE with BalanceAdapt™. Subtle rocking motions enhance the feeling of total balance. These movements usually make all the difference between a good seat and a fantastic one.

Stressless® Stella with arm S1, headrest and LongSeat (M)

Style and substance

Sleek and modern, or soft and inviting? Why not have the best of two worlds? On the outside, the Stressless® Aurora sofa serves up the perfect blend of visual qualities. On the inside, it features the Plus™ and Glide™ systems which add both finesse and comfort. That all adds up to a contemporary look with a unique and timeless Stressless® feel. This sofa is available as a high back with individually adjustable seats. Choose between polished metal or wooden legs in three different heights.

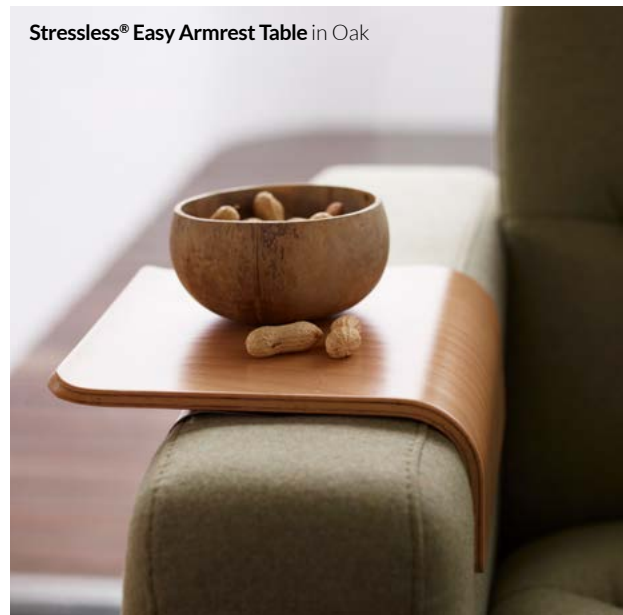

Stressless® Wave High back
Pioneer Grey/Polished Metal

A wave of pleasantness

Stressless® Wave brings a modern approach to a timeless design, and can be tailored to fit into urban environments as well as traditional surroundings. Like other Stressless® sofas, it adjusts to your body as soon as you take a seat. Our built-in Plus™ and Glide™ systems support both your head and lower back, whether you sit up or lie down. It's available in a three seat, two seat and one seat setup, and can also be combined with the medium corner or sector for home cinema setups. Stressless® Wave also comes with a choice of high or low back and a selection of leg designs in wood or metal.

PLUS™ SYSTEM. Whether you are sitting or lying down, our unique Plus™ system provides optimal comfort and support for the lower back and head, in all positions. The lumbar support automatically adjusts as you recline. You can also choose between an active or rest position for the neck.

COMFORT IN ALL POSITIONS. When sitting down, ErgoAdapt™ provides a soft landing and total comfort with a seat that automatically adjusts to your position. When lying down, the seat turns completely flat for best possible rest.

Stressless® Emma E600 Classic with headrest, Paloma Black/Polished Metal
Stressless® Urban Star (L) Table, Matte Black

Heart, mind and body

With its contemporary design and inviting, supple cushioning, the Stressless® Emma sofa has won the hearts of many homeowners. It holds considerable appeal to the rest of the body as well: The built-in ErgoAdapt™ system means the sofa seat automatically adjusts itself to support you in all angles and positions. When you lie down, the seat turns completely flat for the best possible rest.

Creating the sofa of your dreams is easy with Stressless® Emma. Choose between three different armrests and two cushion designs. Together with a wealth of options in modules, legs and upholstery, it allows you to puzzle together the ultimate, tailormade sofa for your home.

Feel the calm

Scandinavian design is all about purity, cool elegance and a down to earth-feel. Stressless® Copenhagen embodies this philosophy without sacrificing any of the comfort you have come to expect from the legendary brand. It offers a modern and light design with clean lines and an elegant silhouette. The back cushions are filled with a blend of down and shredded foam. ComfortZones™ in the seat cushions enhance the softness and make them adapt to your seating position.

Stressless® Copenhagen offers countless possibilities for personalising the look and shape of the sofa. It's available as 2.5 seat, 3 seat Duo, Corner and LongSeat. All seats can be combined to create your perfect modular sofa setup.

Stressless® Copenhagen with arm C1
Calido Light Grey/Polished Metal

When you sit down in a sofa with **ComfortZones™** the back part of the cushion will give in more than the front part of the cushion. As a result of this, the seat cushion will angle slightly, giving you a comfortable position of your legs while seated.

Armrest C1 has a soft curve against the seat, enhancing the round and feminine shapes of the sofa.

Armrest C2 is slim with square edges. This armrest helps highlight the airy and modern expression.

Paloma Rock/Black

Stressless® Urban Cross (L) Table

Matte Black

When you sit down in a sofa with **ComfortZones™** the back part of the cushion will give in more than the front part of the cushion. As a result of this, the seat cushion will angle slightly, giving you a comfortable position of your legs while seated.

Have you ever found yourself wishing you could spend more time together as a family? The dining area is often the only meeting point in a busy schedule. It is also the place to enjoy the company of friends, old and new. A place to dine, converse and share memories.

One way to make sure the guests flock to the table is through providing the best seating possible.

Stressless® dining chairs are expertly designed to work with your body, not against it. The flexible seat and back follow and respond to the movements of your body in a unique way, offering a variety of positions for total comfort. With Stressless® dining chairs you can while away the hours in complete comfort.

Stressless® Rosemary Low (M), D200
Paloma New Cognac/Whitewash

Lean back ... into perfect balance

We gave our designers a challenge: Can you bring the unique Stressless® comfort to the table, with chairs that respond to the body's movements? Their answer was the Stressless® dining line of chairs. They automatically adjust the seat and back position without levers or handles. Lean forward, and the chair moves to reduce the pressure under your legs while supporting your back. Lean back, and enjoy the reclining backrest while the seat slides forward, providing a more open and comfortable sitting position.

DINE IN COMFORT. Our dining chairs have a flexible seat and back, offering a variety of positions for increased comfort. This comfort enables you to maximise your quality time with friends and family.

Build a beautiful, sustainable home

All Stressless® furniture can be customised with our wide range of materials and finishes. This means that you can get really creative, or stay traditional: Combine different types of furniture and maintain a uniform interior for your home. Choose recliners, sofas, dining chairs and home office chairs in the same covers – or create interesting contrasts with different textures in matching colours.

DINE IN COMFORT. Our dining chairs have a flexible seat and back, offering a variety of positions for increased comfort. This comfort enables you to maximise your quality time with friends and family.

Dining with a twist

One of the main keys to a truly comfortable sitting experience is in fact movement. With the D350 and D450, our dining chairs get a new range of motion. The swivel function has several advantages in addition to its smart, good looks. It makes it easier to get in and out of the chair, and reduces the need to pull the chair away from the table before sitting down or getting up. This feature also helps keep the conversation going, as you can turn the chair to face the person you are talking to. Innovative dining at its best!

A 360 degree swivel is standard on the D350 and D450, with autoreturn as an option.

DINE IN COMFORT. Our dining chairs have a flexible seat and back, offering a variety of positions for increased comfort. This comfort enables you to maximise your quality time with friends and family.

AND MOTOR

We guarantee all electrical parts and motor on the Power™ system for a period of 5 years from the date of initial delivery to the consumer. The battery is not included in the 5-year guarantee.

2 YEAR WARRANTY on Power Batteries.

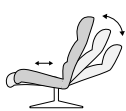

EXCLUSIVELY ENDORSED

Stressless® is the only seating brand endorsed by the Australian Chiropractors Association.

The Innovators of Comfort™

With the best quality materials, environmentally friendly processes and an uncompromising focus on comfort, our machines and people work together to create furniture that will live with you through a lifetime. When you sit down and appreciate how genuine Stressless® furniture feels, you will know.

Whether you sit up or lie down, the **Plus™ System** provides optimal comfort and support for your head and lumbar region. The sleep function is controlled with a simple hand movement to make your comfortable moments even better.

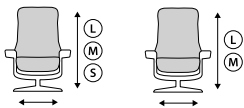

With **BalanceAdapt™**, subtle rocking motions enhance the feeling of total balance. These movements usually make all the difference between a good seat and a fantastic one.

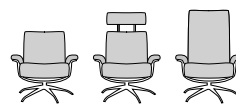

With a light pressure under the armrest, **Power™** adjusts both the footrest and the back angle. This combination provides superb support and comfort.

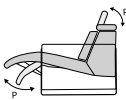

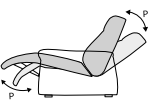

Power™ is easily operated by the remote control, the motorised functions offer truly outstanding comfort in all positions, small adjustments can make a big difference. Take comfort to the next level with optional extras including built-in heating and massage functions.

Optimal comfort is also about correct size. Most of our recliners therefore come in small, medium and large, for you to find your perfect fit.

Optimal comfort is also about unique design options. Our Star, Cross and Original base models come in 3 different options, Low, Adjustable and High Back.

With a light pressure on the right side of the seat cushion, **Power™** adjusts both the footrest and the back angle. This combination provides superb support and comfort.

When sitting down, **ErgoAdapt™** provides a soft landing and total comfort with a seat that automatically adjusts to your position and smallest movements. When lying down, the sofa turns completely flat for best possible rest.

When you sit down in a sofa with **ComfortZones™** the back part of the cushion will give in more than the front part of the cushion. As a result of this, the seat cushion will angle slightly, giving you a comfortable position of your legs while seated.

The unique **Stressless® Dining** chair responds to your body's movements and automatically adjusts the seat and back position, without levers or handles. This comfort enables you to maximize your quality time with friends and family. Enjoy!

Create the recliner of your dreams

Never before have so many options been available to help you find the Stressless® recliner that's just right for you. We wanted to make sure that everyone could experience total relaxation, regardless of height or body shape. There are various bases, wood types and luxurious leather and fabric to choose from so that you can create the chair of your dreams.

Select design and size

Make your selection from our range of designs and sizes to find the perfect fit for you.

Select upholstery in leather or fabric

Stressless® furniture can be delivered in 5 leather qualities and 8 fabric qualities in more than 100 colors. See the whole range of leather and fabric at stressless.com

Stressless® Sam and Scott can be delivered in several leather and fabric qualities in a lot of colors. See the whole range of leather and fabric at stressless.com

Stressless® base colours

Stressless® uses rotary cut beech veneer in all its moulded furniture components. Lightly steamed beech is used for solid wood components. The hardness of the wood makes beech furniture extremely durable, and the timber we use is a renewable resource. Beech is a natural material and variations in its pattern, colour and texture make each piece of furniture unique. Although beech is used for both solid and moulded components, structural differences may be visible.

Put your **Stressless® modular sofa** together exactly the way you want. Regardless of space, with our ingenious flexible modules there's always room for a Stressless®. First find your favourite model and then select your ideal arrangement. A few possible configurations in a variety of our styles are shown below.

Find out more about the many options available for each model at [stressless.com](https://www.stressless.com)

Stressless® Home Cinema

You move more than 300 times during the length of a movie. This might sound exhausting, but don't despair – Stressless® seating is designed to adjust to your every movement. The spacious, soft seats of your Stressless® Home Cinema seating, combined with a Stressless® ottoman, ensure an optimal movie experience.

Regardless of how much space you have available for your home cinema setup, our ingenious flexible modular designs ensure that there's always space for a Stressless® sofa.

Find out more about the many options available at [stressless.com](https://www.stressless.com)

Stressless® Arion A10 / Stressless® Arion A20

Stressless® Wave

The Stressless® Sector (SC) / Sector Arm (SCA) is upholstered in the same way as the sofa and conceals a storage space beneath the top. The Sector / Sector Arm also functions as an armrest, which is why setups with Sector / Sector Arm tables should be treated as a single, fixed unit.

View with the Stressless @home App

You can also download our Stressless @home App, personalise your favorite piece of our furniture, and actually place it in the living room, kitchen or office at home with the help of your phone or tablet. The app provides you with pictures of all our chairs and sofas and lets you choose your preferred materials, colours and bases. It doesn't get easier:

- Download the application from App Store or Google Play
- The app will automatically download all available Stressless® products at startup
- Choose model and style it at your preference
- Choose “view at home”, and see your Stressless® chair in your home through the camera.

App Store

Google Play

Stressless® Leather and Fabric Care kits

Stressless® offers its own leather and fabric (including microfibre) care kits to match the high quality of our furniture.

The Stressless® Leather Care kit (medium/large) contains a leather cleaner and protection cream. Stressless® Leather Care Wipes are also available. For the leather quality Pioneer there are special cleaning and care products: Stressless® Cleaning & Revitalising Pioneer Leather Kit.

For maintenance, and to make the leather more resistant to stains, the protective cream should be applied to all your recliner's leather surfaces when new. We recommend that you clean the leather with Stressless® leather cleaner at least once every six months to keep your leather looking its best, removing stains regularly and ensuring long leather life. Always apply the protective cream after cleaning.

The Stressless® Fabric Care kit contains a fabric cleaner, a stain remover and an Ox cleaner. This kit contains everything you need to clean your furniture in minutes without removing the fabric cover. For resistant stains, use the fabric cleaner together with the stain remover and Ox cleaner.

These are the only cleaning products recommended by Stressless®. Stressless® accepts no responsibility if cleaning products other than those recommended by Stressless® are used and cause damage to the leather.

TABLES AND OTTOMANS

Stressless® Urban Star (L)

Stressless® Corner table

W: 69, H: 48, D: 60

This practical table is perfect for placing between a pair of Stressless® recliners. Also ideal for any corner setup or home cinema arrangement. Available in 8 wood colours.

Stressless® Easy Armrest table

W: 25, H: 10, D: 23

The Stressless® Easy Armrest Table fits sofa models with an arm width of 13-20 cm. Simply place it on the armrest for convenience when sitting and relaxing. You can easily take it off or move it when not in use.

Stressless® Computer table

W: 41, D: 31

This table provides a good working position and remains independent of your movements. Simply swing it to the side and fold it down when not in use. Can only be fitted to Classic/Classic Office/Classic Power base recliners. Available in 8 wood colours.

Stressless® Swing table

W: 28

This table remains independent of your movements and can be simply swung aside when not in use. Can only be fitted to Classic/Classic Office/Classic Power base recliners. Available in 8 wood colours.

Stressless® Style tables

W: 137, H: 47, D: 60

W: 55, H: 52

Sofa table and side table, available in several colour combinations. The slight difference in height means that the tables can be easily combined in different ways, either standing apart or close together. The tabletop is made from MDF with a melamine surface and is available in White, Black and Cream. The wooden legs are available in Black, Whitewash and Brown.

Stressless® Windsor table

W: 132, H: 48, D: 70

Made from beech with a tabletop in glass. Available in the following colours: Oak, Walnut, Teak, Brown, Wenge, Grey, Whitewash and Black.

Stressless® Emily Steel Table Center/End

W: 50, D: 40

Two tables perfectly designed for Stressless® Emily. The Steel table for Wide arm can be fitted over the Wide armrest to create a steady surface. This table also has a practical storage for newspapers and magazines. The Steel table for Center and End modules transforms the modules into a convenient table.

Stressless® Emily Steel Table Wide Arm

W: 33, H: 2, D: 36

Stressless® Soft and Modern ottoman

W: 60, H: 44, D: 60

W: 64, H: 44, D: 70

W: 51, H: 44, D: 40

W: 53, H: 44, D: 49

The ottoman is ingenious in at least two ways. Firstly, it features a built-in tilt system, which ensures that the angle of the ottoman is adjusted to your sitting position. And secondly, it has room for all your extras under its removable top. Available in two sizes.

Stressless® Stella ottomans

W: 90/70, H: 44, D: 57

A sleek footstool perfectly designed to match our Stella sofa. Available in 2 sizes. Complement with an optional tabletop. The tabletop is available in 8 wood colours.

Stressless® Double ottoman with ottoman table

W: 119-154, H: 44, D: 61

This large ottoman offers ample space to put your feet up, while the storage space conceals a tabletop that can be placed on the ottoman when needed. The tabletop is available in 8 wood colours.

All great choices, naturally

Being one of the world's largest premium furniture manufacturers comes with responsibility. All our leather is manufactured in keeping with current laws and guidelines for animal welfare, health, safety and the environment. Here, we work alongside recognised international institutions to ensure that we are always up-to-date.

Our inspectors also take part in the leather selection process from our chosen tanneries. We maintain the highest of standards here, so that you always make a great choice – regardless of texture, softness, colour and how you want the leather to look and feel. Today and tomorrow. For this, we offer many types of leather – from the most exclusive and delicate to the more robust quality.

BATICK is a corrected, pigment improved and grain embossed upholstery leather, which has had most of its natural marks removed. Batick may have a two-tone colour effect to liven up the surface. Batick is resistant to fading, although changes in colour will occur over time due to use and exposure to light. A protective layer of lacquer simplifies cleaning. Simple cleaning, excellent utilisation properties and a favourable price make Batick a good choice.

CORI is a corrected, pigment improved and grain embossed upholstery leather. Cori has a substantial body and a distinct pebbled grain. Most of its natural marks are removed. Cori has a tip-shine which adds depth and character to the surface. Some colours have two-tone/ tone on tone-effect. A protective layer of lacquer simplifies cleaning. Cori is a wise choice if you want leather with excellent utilisation properties, a robust structure and an exclusive look.

PALOMA is a slightly corrected leather with a combination of dyes and pigments that smooths down some of the structure (the grain pattern) of the leather. The grain structure in Paloma may however vary a little at some parts of the furniture and also minor colour nuances may appear in the leather. Natural marks, scars and insect bites are natural and will appear in Paloma. A thin coat of lacquer gives Paloma some protection and simplifies cleaning, but Paloma does not have the same heavy duty quality and protection as Batick and Cori. Due to its soft, natural and comfortable expression, Paloma is a very popular choice.

NOBLESSE is the most exclusive leather quality offered by Stressless®. It is a full grain semi-aniline, which means that it is dyed all the way through and has only a thin protective topcoat. This allows the leather to keep the natural softness and lustre that characterises a first-class furniture leather. A natural material like Noblesse retains its original grain and structure. Minor colour nuances and skin blemishes may also occur. Such individual details could lead to slight variations in different parts of the furniture cover. Although the topcoat provides a measure of protection, Noblesse is the most delicate of the leather qualities that Stressless® uses. It absorbs moisture easily, and is more vulnerable to wear and tear, heat, sunlight, spills and perspiration. Regular maintenance is important to keep its attractive appearance.

PIONEER is a luxurious full grain aniline pull-up leather. This exclusive and delicate quality retains the full original grain of the leather, and is treated with oils, waxes and transparent dyes. This enhances the soft touch and natural appeal, offering deep, vibrant colours and a beautiful luster. The full-bodied leather sensation and natural transparent look will gain patina and become even more beautiful with age. On an exclusive leather like Pioneer you will find natural characteristics like colour nuances, difference in structure, marks and skin blemishes. The delicate finish gives an exceptional comfort and a striking look, but offers just a light protection. Pioneer absorbs moisture easily and is vulnerable to heat, sunlight, spills and perspiration. Regular care and precautions are important to keep the luxurious and elegant appearance.

Sustainable fabrics

At Stressless® we are proud caretakers of the beautiful scenery that surrounds the factory in Norway. We wholeheartedly believe the best choice you can make is to furnish your home with high quality furniture that will last a lifetime. In addition to this, we are delighted to offer products that are made with extra focus on the environment and sustainability – both in our choice of materials and in our production.

The Stressless® fabric collection is inspired by nature – offering you the possibility of creating a calm breathing space in the comfort of your own home. We have a large selection of qualities and colours to choose from. The latest addition of fabric qualities, Daisy and Tulip, are especially selected with sustainability in mind.

Our specially selected fabric collection meets the furniture industry's strictest requirements. Stressless® fabrics are produced in accordance with strict environmental conditions and are treated for heavy-duty use, light tolerance and inflammability. Choose from our wide selection of colours to match your interior. Please note that colour changes will occur over time as a result of use and the effects of exposure to light. You should always protect your furniture from direct sunlight. To prolong the life and appearance of your recliner or sofa, the fabric upholstery should be regularly vacuumed, professionally dry-cleaned or cleaned with our approved Stressless® Fabric Care kit.

CALIDO is a wool felt fabric with an exclusive appearance, which feels comfortable and soft next-to-the skin. It is available in a varied and exclusive colour palette. 80% wool, 20% polyamide.

DAISY is an exceptionally soft and comfortable fabric made from recycled bottles. The silkysoft fiber is weaved with a light structure and a soft pile. The harmonious colour palette has a nice sheen and play created by a weave with different nuances and structure. Daisy is a good choice if you are looking for a sustainable and strong fabric with a soft touch and easy maintenance. 100% polyester.

DINAMICA is a well-known microfibre-quality fabric with an appearance resembling chamois leather. This is soft and very comfortable, breathable and non-static. Easy to keep clean and highly wear resistant. 88% polyester, 12% polyurethane.

GRACE is a velour with a medium length pile. The soft, silky texture has a fine sheen and provides an attractive interplay of colours. Grace is hardwearing, comfortable to sit on and easy to keep clean. 92% polyester, 5% cotton, 3% latex.

LINA Thanks to its interwoven contrast colours, Lina has an exciting look & feel. The fabric feels soft, cosy and inviting. The elegant colour palette combines beautifully with the Stressless® leather colours. 54% polyester, 30% cotton, 16% viscose.

LINDEN has a strong structure. The weave includes threads in different shades and with various levels of shine, providing attractive, subtle variations in the surface. 53% polyolefinic, 26% acryl, 11% wool, 8% polyester, 2% polyamid.

MAGNOLIA. Our new velvet has a light slub effect that gives a soft and interesting shine. It is a classic, durable and washable fabric quality. Magnolia is water repellent. It has a soft and silky texture that gives a nice shine and great light play in the earthy natural palette. 100 % Polyester.

TULIP is made with 60% recycled material. It is washable and easy to clean. Our collection consist of 12 calm colors, all with a versatile woven mélange effect that makes it easy to adapt to both our leather collection and to any interior style. 60% RPET, 40% PET.
